

High Efficiency Mold and Fungi Elimination

The most effective method for completely eliminating mold, mildew, bacteria, viruses, odors, volatile organic compounds (VOC's), chemical fumes, gases and vapors.

Safe for personnel areas. Non-reactive to rubber, plastic, vinyl, or electronics.

Custom design and turn-key installation available.

Standard Features:

- Low operating and maintenance cost
- No required chemicals or disposal of contaminated odor absorption media
- Easily adaptable for retrofitting existing units (compact footprint)
- A permanent solution to control indoor air contaminants such as bacteria, viruses, mold, VOC's, and odors
- Continuous duty operation
- Zero emissions, zero toxins, chemical free operation
- Professionally designed, engineered, and built to fit your application and available space
- 1 year manufacturer's warranty on all parts and labor
- ETL Canada/US - CSA & UL standards certified

Product Specifics

Power Requirements	Airflow
120V 1.4A	425 CFM
120V 2.6A	425 CFM
120V 3.5A	425 CFM
120V .75A	800 CFM
120V 3.5A	600 CFM
120V 13A	1400+ CFM
120V 16A	2800+ CFM
120/240V 20A	5000+ CFM

Options:

- Wall mount, hidden above ceiling, uses independent duct system
- HEPA filtration
- Pollution load monitor/controls
- Floor mount for lightweight portability
- 1/10 quartz hour meter
- Outdoor enclosure
